

Dear Jaffrey Community Member,

The Town of Jaffrey is currently working to update the existing Master Plan **Vision and Community Character** Chapter. This chapter is the cornerstone for the Master Plan and organizes the principles and goals that will guide the subsequent specialized chapters.

The common Vision on which the Town Master Plan is based expresses the community's shared philosophy and aspirations for

-

- ✓ future growth
- ✓ quality of life
- ✓ preservation of important resources
- ✓ balance of development and natural environment
- ✓ and Town leadership.

The Vision will direct all other chapters of the Master Plan providing a framework for key recommendations and goals.

Participation by residents, property owners and other stakeholders in this important project will help guide the future of our community. Your input is vital to the process!
